

LaGrippe is Contagious.

Atmosphere Impregnated with Germs

Disease Proved Beyond Question to be Infectious—Is Rapidly Conquering the Country.

LaGrippe is a contagious disease. Its specific germ has been positively identified, and it is transmitted from person to person either by direct contact or by inhaling the germs while they float in the air. It is a dangerous disease, lowering the vitality and wasting the restive power so that pneumonia, heart disease, nervous prostration and insanity find easy victims. No specific is known that will kill the grip germ, but it may be driven out and its effects overcome by the prompt use of Dr. Miles' Restorative Nervine.

"La Grippe left my nervous system so racked and shattered that I could not sleep and for two months was under the influence of narcotics. Physicians and friends gave me up to die; but in two days after I commenced taking Dr. Miles' Restorative Nervine I began to improve, and in a month's time I was entirely cured. It is the greatest health restorer on earth."

SCATHING

Is General Eagan's Attack on General Miles, Commander of the Army.

HE IS DENOUNCED AS A LIAR

With a Heart as Black as the Man Who Blew Up the Maine—General Eagan Also Pays Attention to Yellow Journalism—He or Miles Should Leave the Army.

Washington, Jan. 13.—Commissary General Charles P. Eagan yesterday reappeared before the war investigation committee to answer the charges of General Nelson A. Miles, concerning the commissary supplies furnished the army during the recent war. General Eagan's statement furnished the sensation of the war commissions history, and was regarded by old army officers as one of the most remarkable attacks ever made in the history of the service. General Eagan's statement to the committee was a bitter personal attack upon General Miles, so entirely unqualified both as to scope and language that the war committee, on hearing its conclusion, ordered a brief executive session, after which the doors were reopened, the witness was recalled and business resumed in the regular way. The subject in controversy was General Miles' already famous "embalmed beef" testimony, and the letters and documents supporting it.

This reflected upon both the ability and honesty of the commissary department, had angered General Eagan and caused him to request to be recalled to reply to General Miles charges. That his statements concerning the commissary general was not the result of a sudden outburst of passion was clearly shown by the fact that General Eagan read his remarks from a carefully prepared typewritten copy.

As soon as the nature of General Eagan's statements became known attention was directed to army headquarters to ascertain what move would be made by General Miles. The latter, through Colonel Mitchell, his chief aide, beyond saying that he had stood for the soldiers, declined to make any statement, saying that now was not the time for talk.

General Eagan's Testimony.

General Eagan referred to the published interviews of General Miles and correspondence between them as to their authenticity, General Miles having made a non-committal reply and the witness then said in part:

"When a man refuses to deny a libel or falsehood or a statement attributed to him it is well known that he assumes the matter. When he avoids the question the supposition is that he cannot deny it. My question is not answered yet. He has not denied the interview published in the New York Journal dated Dec. 23, and having refused to distinctly deny it, he should be held to the strictest accountability for it. If he made these statements as set forth there, then he lied again and if he made the statements that 'pretense is the precise term to be used' (as he said when referring to the 'experiment') then he lied with a black heart as the man who blew up the Maine possessed, and he deserves to be characterized and known to America and Europe, where his statements have gone, as being the colossal, prodigious liar of the nineteenth century. I submit to this committee and to the whole country that this account of an interview with him in the New York Journal going uncontradicted, unrefuted and when the opportunity was given him a refusal to deny it in terms, places upon him the onus and responsibility for the statements in that interview, which

If every woman who expects to become a mother would heed and read that great book, "The Perfect Companion," the consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., there would be stronger mothers and healthier, happier children in this world. In this grand volume several hundred of its thousand pages are devoted to teaching women how to take care of themselves during every trying and critical period of their lives and especially at the time of approaching motherhood.

The author of this remarkable work has had a lifetime of practical experience in treating the special diseases and weaknesses of women, and is recognized as one of the foremost of living experts in this particular field of practice. His "Favorite Prescription" is the most wonderful medicine ever invented to restore natural organic strength and power to the delicate feminine structure which is most intimately concerned in motherhood.

Taken during the time of anticipation it deprives this ordeal of all its accustomed terrors and dangers; makes the coming of baby absolutely safe and comparatively painless; renders the mother strong and cheerful, and helps to endow the child with a strong, healthy constitution.

Mrs. Mabel Jordan, of Swofford, Lewis Co., Washington, writes: "I took Dr. Pierce's Favorite Prescription until the very last day. We now have a fine, plump little girl over two weeks old. I suffered less pain than with any of the others, this being the sixth child, and she has good health. I got up on the tenth day and dressed myself—something I could not do with the other babies. Have been gaining in strength every day and feel well, all due to God and to Dr. Pierce's Favorite Prescription."

For the "Medical Adviser," send 21 cent stamps, to cover cost of mailing only, or for cloth-covered copy 31 stamps, to Dr. R. V. Pierce, Buffalo, N. Y.

statements I here and now denounce as unmitigated falsehoods, vile and slanderous, so slanderous that it can be only called filth. I submit to this committee and to the country at large whether it is the characteristic of an honorable man to permit such statements as are made in this alleged interview with General Miles in the New York Journal to go uncontradicted if untrue, and whether or not it is not the first duty of a gentleman, an honest man, an honorable man to deny such falsehoods as are to be found in the article I refer to, if they were not made by him."

Yellow Journalism.

General Eagan, referring to newspaper attacks, asserted that the secretary of war had nothing whatsoever to do with the furnishing of refrigerated meats or tinned meats, nor had he attempted to control the contracts, awards or purchases, and in this connection, in heated language, he attacked three New York newspapers and their editors and proprietors, whom he said should be indicted and tried for treason to the United States during this war, as giving aid and comfort and information to the public enemy for the sole purpose of gain.

"Were I a man of wealth or means," he protested, "I would take this subject upon myself; I would put journalistic knaves, purloiners of the secrets of the government, behind the bars, where they belong."

"Having traversed General Miles' statements," he said, "having shown him to you to be a liar, having demonstrated the animus that pervades this whole matter, I now go back to his statement that in his judgment food was one of the serious causes of so much sickness and distress of the troops. The design to say, to imply, to assert, to insinuate that sickness was caused for such reason in Porto Rico is to make an assertion wholly untrue, devoid of any facts, devoid of truth, and can only be prompted by a base motive and under cover of the qualification 'in my judgment.'"

Mr. Eagan concluded as follows: "If I have used harsh language before this committee in dealing with the subject, I ask the commission to bear in mind that grouping together the statements made by General Miles, means that I have furnished, or allowed to be furnished, to the army 'embalmed beef,' which has diseased soldiers, and that a great deal of sickness arose from its use; that I have furnished meats to the army under the 'pretense of experiment,' meats that made the soldiers sick, and this under the pretense of experiment, this because of corruption."

"Nearly all the press of America, because of General Miles' high position in the United States army, has accepted these views and his statements, and many of them have called for my disgrace, court-martial and dismissal from the service."

"For myself, I content myself with the expressing my profound belief that either General Miles or I should be put out of the service; either he is right or I am right; either he dishonors his uniform with his false statements and libels or I dishonor mine in feeding soldiers with poisonous beef, causing their sickness, and doing so under 'pretense of experiment.'"

BRECKINRIDGE

Interviewed Regarding General Eagan's Testimony.

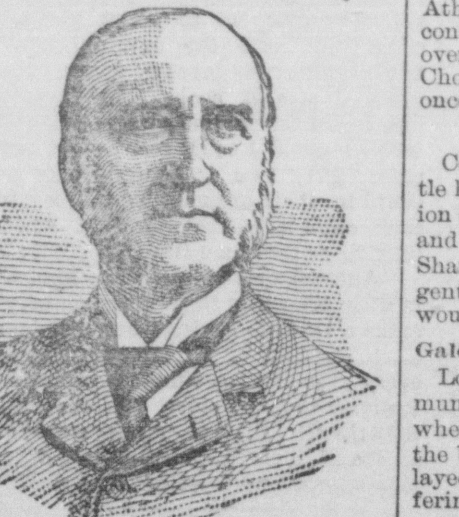

Washington, Jan. 13.—General Breckinridge in an interview on General Eagan's testimony, said: "I will tell you what is the trouble, what we need in the war department is a set of gentlemen. In every war this country has had we have found that the war department was not a unit with the army, but a sort of segregated factor working out its independent power. Headed by the secretary of war, a cabinet officer, at least partly so, with a coterie of men who cling to each other, held together by the bond of mutual interest, and are thus forced into a position which becomes one of open hostility to the rank and file of the army."

"That is the trouble now. Take these men at the war department, such men as Eagan. If he were the gentleman he ought to be such a disgraceful situation as the one with which we are now confronted could never have arisen. I believe this Eagan affair is one of profound seriousness. It injures the army in the eyes of the American people and it injures the American people in the eyes of the world."

Troops at Panama

Will Probably Be Withdrawn at an Early Day.

Springfield, Ill., Jan. 13.—The state troops at Panama will probably be sent home at an early day. It is stated that the people of Panama have shown in many ways a lack of appreciation of the protection that has been afforded them.

The conditions are such that the governor thinks the sheriff fully able to cope with the situation, and within a few days he will probably call upon that officer to preserve the peace, and the troops will then be withdrawn.

There are about 175 soldiers now on duty there. The companies are L, K and H of the Fifth regiment.

WILL FIGHT

Major Von Sonnenberg Says Filipinos Will Battle For Self-government.

AMERICANS DRIVEN BACK

Armed Natives Prevented Blue Jacks Landing on the Island of Quimaraes—Filipinos Refuse to Deal With Troops and Vegetables and Fruits Are Unobtainable.

New York, Jan. 13.—Major Alphonse Von Sonnenberg, the German military expert, who was at Manila during the blockade by the United States navy after the battle at Cavite and who is now in this city, speaking about Rear Admiral Dewey said:

"There were never any honest difficulties between Dewey and the German admiral, Von Dietrich; there was only a theoretical difference about the interpretation of one word in the expression *Droit de Visite*—the right to search. That was the meaning of *visite*, for the forms of search were different toward different kinds of vessels, toward merchantmen and ships of war. But after the friendliest exchange of letters by the two admirals an understanding was at once reached."

Questioned about the attitude of the native Filipinos toward the United States, Major von Sonnenberg was emphatic: "The Filipinos will fight," he said, "unless you give them what they want. I believe they will not lay down their arms until they get self-government."

FILIPINOS AT ILOILO

Lighters Loaded With Rock and Sank In the River Entrance.

Manila, Jan. 13.—The situation at Iloilo is unchanged. The Filipinos are uneasily active day and night. On Saturday they loaded some lighters with rock and sank them at the entrance of the river, blocking the channel for all vessels with the exception of launches. All the lights have been extinguished. Order, however, is maintained with severity, and offenders are promptly shot.

On Sunday one of the Arizona's boats, manned by soldiers, was carried by the tide to Quimaraes island, and while attempting to land there, armed natives assembled on the beach and compelled the Americans to retire.

The Filipinos refuse to have any dealings with the Americans. Vegetables and fruit are unobtainable, business is suspended and warehouses are full of rotting sugar.

At Manila the situation is critical, but pacification is possible, in spite of the unyielding attitude of the Filipinos. It is reported that the rebel government at Malolos is willing that the Americans should establish a protectorate on the condition that they promise to give the Filipinos absolute independence within a stated time. It is also said that the Filipinos will demand official recognition.

Efforts are being made to bring about another conference with the rebels. The educated Filipinos are anxious to avoid trouble, and it is hoped that the militant Filipinos will recede before wiser counsel.

Alleged Deserters.

Hong-Kong, Jan. 13.—The Filipinos here say that 10 American volunteers jumped overboard from the transports bound from Manila to Iloilo, swam ashore and said they had not volunteered to fight Filipinos. The report is not confirmed.

Aguinaldo's Intentions.

London, Jan. 13.—The Hong-Kong correspondent of The Times says: "The Filipino refugees insist that Aguinaldo will regard a landing of the Americans at Iloilo as a declaration of war and will immediately attack Manila. He has already warned the foreigners, including the Spaniards, of his intention, offering them a safe conduct into the provinces. The American authorities still exercise a strict censorship at Manila over all press messages."

Awful Death Rate.

Havana, Jan. 13.—The official report of the mayor of Santa Clara shows that in 1896 there were 1,416 deaths, 6,987 deaths in 1897 and 4,841 deaths in 1898, being in three years a loss of 80 per cent of the population. General Raphael Montalvo will be appointed superintendent of the penitentiary.

Linseed Oilmill Deal.

Omaha, Neb., Jan. 13.—The Woodman linseed oilmill in this city, the largest of the kind in the world, formerly the property of the trust, has been transferred to the reorganized company, the deal being filed yesterday. The mill is operated under a long time lease by a local company and will so continue. The National Linseed Oil company's plant at Des Moines was yesterday transferred to the American Linseed Oil company.

Ate Diseased Chicken.

Toledo, Jan. 13.—Four children of George Laing have died in the past two weeks from eating diseased chicken meat. The servant is also ill and her recovery is doubtful. It is supposed the chickens were affected with cholera.

\$450,000 Fire at Memphis.

Memphis, Jan. 13.—A fire which broke out last night in the wholesale and retail dry goods house of the J. S. Menken company, one of the largest establishments of its kind in the south, caused an estimated loss of \$450,000.

Senators Hoar and Frye

Announce That They Will Vote Against the Treaty.

Washington, Jan. 13.—The supporters and opponents of the peace treaty in the senate had their first contest over that document yesterday in executive session. While the debate technically was upon Senator Berry's motion providing for the consideration of the resolution of ratification in open session, the entire question at issue was gone over to a considerable extent.

Senators Hale and Hear announced themselves openly during the session as determined to vote against the treaty, and while the discussion was in progress a number of Democratic senators held a conference for the purpose of deciding upon a course of antagonism, calculated to secure its defeat.

Fifty-Fifth Congress.

Washington, Jan. 13.—The house yesterday passed the diplomatic and consular appropriation bill without amendment. The diplomatic and consular is the sixth of the regular appropriation bills to pass the house. Seven budgets yet remain to be acted upon. The bill as passed carries \$1,705,533. The senate passed 16 pension bills and a resolution of thanks to Miss Clara Barton and then went into executive session.

Confirmed by the Senate.

Washington, Jan. 13.—The senate yesterday confirmed these nominations: Addison C. Harris of Indiana, minister to Austria-Hungary; Charlemagne Tower of Pennsylvania, ambassador to Russia; Thomas C. Elliott, surveyor of customs, Cairo, Ills.

National Banks

Recent Reports Most Notable Statements in History of the System.

Washington, Jan. 13.—Charles C. Dawes, controller of the currency, in commenting upon the abstract of reports of national banks under the call of Dec. 1, 1898, yesterday said that it was the most notable statements made in the history of national banking system. The reports show a large increase over the reports of Sept. 20, 1898, the date of the preceding call.

The total of the resources of Sept. 20, 1898, was \$4,003,511,044, which was the largest sum reached in the history of the system up to that time.

The total resources shown by the reports of Dec. 1, 1898, were \$4,313,394,519, an increase in resources over the showing of Sept. 20, 1898, of \$309,883,474.

The increase in individual deposits over the Sept. 20 statement is \$193,515,272, and they reach a total of \$2,235,269,813. In loans and discounts the increase is \$58,463,210 and the aggregate \$2,214,394,838.

The cash in banks shot, as an increase, while notes and bills rediscounted and bills payable show a decrease as compared with the September statement.

Clerk's Crimes

Deputy Sid Terry Is Charged With Embezzlement and Forgery.

Shelbyville, Ills., Jan. 13.—A recent investigation of the county clerk's books of Shelby county has revealed the fact that from \$300 to \$800 is missing. Sid Terry, a deputy clerk under the last administration, is alleged to be not only an embezzler, but a forger. He is prominently connected, and has borne an excellent reputation. The expert who examined the books reports that he found Terry drew county orders for outside parties, raised the amounts, remitted the correct amount and pocketed the difference. One bill of \$13.15, payable to the Illinois Feebleminded institute, had been entered on the record and, after being approved, the figure one had been changed to four, making the amount \$43.15, instead of \$13.15. The \$43.15 was drawn from the bank, \$13.15 sent to the above named institution and the other \$30 used by somebody. Many instances of this kind were found in the books. He was arrested on complaint of the ex-county clerk, gave bond, and now he cannot be found.

Will Pay an Indemnity.

Pekin, Jan. 13.—The trouble arising out of the murder of the medical assistant at the American mission at Chung King last year has been settled satisfactorily. The Chinese authorities will pay an indemnity, cashier and dismiss the guilty officials and grant a building for a hospital in the locality where the murder was committed.

Funds For Another Library.

Washington, Jan. 13.—Andrew Carnegie yesterday offered to give \$250,000 to erect a building for a public library for Washington, provided congress would furnish a site and provide suitable maintenance, not less than \$10,000 per annum. Steps will be taken at once to secure the needed legislation.

News in Brief

CHAS. M. DEWEY has received the republican caucus nomination for senator from New York and his election will follow on next Tuesday.

GENERAL MILES has had some unpleasant things said about himself by the commissary-general. Both Miles and Egan have disgraced themselves by the spirit in which they gave testimony.

No less an authority than the governor of the Bank of England has declared that for the first time Europe was not financing the United States but the United States was financing Europe. So the old plea for cheap because we are a debtor nation is futile. —Journal.

EX-POSTMASTER GENERAL WILLIAM L. WILSON has been chosen to succeed Timothy Dwight as president of Yale university. Mr. Wilson represented the second district of West Virginia in congress for twelve years and was the author of the Wilson bill. In 1894 he was defeated for congress and was made postmaster general by President Cleveland. After the expiration of his term of office he was elected to the presidency of Washington and Lee university.

SENATOR LODGE voiced a prevailing sentiment among Americans with regard to our ability to meet the difficulties arising from our new possessions when he said: "For my part, I am confident the American people are capable of meeting any emergency which may arise. Whether we will establish a protectorate or allow the Philippines to set up an independent form of government, or create some other form of government, will be determined later on."

Legislative Comment.

Representative Marsh has introduced a bill in the house to give the owner of a threshing machine a lien on grain threshed by him until same is paid for.

Senator Guthrie's bill to amend certain statutes is in the interest of married women who own property. The law now is that a married woman who has property can not manage it for the benefit of her husband or children. Senator Guthrie's bill gives a married woman the same privileges as to her property as those enjoyed by a man.

Next Wednesday the election of Albert J. Beyeridge to the United States will be formally completed by the legislature. The election, in reality, takes place Tuesday noon, but the last formality, in which the two Houses participate jointly, takes place on Wednesday. At noon on Tuesday the two Houses ballot jointly, and at the Wednesday meeting the vote is canvassed, and the result is announced. After the announcement the Senator-elect will be introduced to the General Assembly, and will make a speech.

CITY COUNCIL.

Treasurer's and Clerk's Annual Reports.—
A Long and Busy Session.

Council met in regular session last night, mayor and all members present. Chairman Shepard, of the committee on accounts, claims and printing, reported that the bill of Chas. Leininger for telephone was found correct and ordered paid.

Chairman Huber stated that the fire committee had purchased a stove for the jail as ordered by council.

Chairman DeGolyer reported that the grade committee and civil engineer had apportioned the brick street and alley sweeping equally between the six sweepers employed. They pay to each sweeper under this apportionment \$4.66. Report adopted.

Chairman Brethauer, of light committee, reported a reduction of \$36.81 from the quarterly bill of the Light Company, which was adopted.

Special committee appointed to investigate the matter of purchasing a dump wagon was granted more time.

The city attorney stated that a new trial had been granted in the case of Rosa Jerrell against the city and that the case would come up for trial sometime next week. And on attorney's suggestion the finance committee were empowered to draw on the city treasury a sufficient amount to pay the necessary expenses of city witnesses summoned to the trial.

Clerk Jennings also stated in his report that the bonded indebtedness of the city is \$25,000, also that the city had an outstanding credit of two engine house notes of \$300 each, drawing interest at 6 per cent. The report is a commendable one.

The city engineer reported that Ewing Shields had 450 feet of sewer tile along the line of the sewer for which he has the contract west from the city and estimates the value of the same at \$180. DeGolyer moved that 75 per cent of this estimated value of the tile be allowed Mr. Shields which was agreed to.

Street commissioner reported that he had generally cleaned the alleys throughout the city the past ten days.

Fire chief Krueger reported that there had been eleven fires since May 22 1898. During that time the firemen had received \$294 25; hauling apparatus to fire had cost \$14.50; repairs, drayage, etc. for department cost \$16 80; improvements \$173 50. Total disbursements for fire department \$498 55. Referred to committee on fire.

The appointment of William Phillips and M. S. Coryea as firemen was approved. The recommendation of the fire chief to appoint a younger and more vigorous man to take the place of Mr. J. J. Frey who has so long and faithfully acted as janitor of the hose house and done other work for the department, also his recommendation that the price of hauling the hose carts to fires between 7 p. m. and 6 a. m. be raised to \$3.00, were both layed on the table.

The claim of W. H. Mason for \$10 40 alleged damage to residence referred to committee on accounts and claims.	
The claim of John Quinn for a rebate of taxes amounting to \$1.80 was referred to finance committee.	
Huber introduced resolution that the city judge and marshal transfer their official effects from the offices of the clerk and treasurer to rooms in the city building and that the playing of checkers, chess and other games in those offices be discontinued. Adopted by a vote of 8 to 2.	
Miller introduced an ordinance to provide for the issue of bonds to pay for the paving of Chestnut street between Tipton and Bruce streets. Ordinance advanced and passed.	
H. W. Godfrey was present and by consent of the council made a very clear statement as to why the property owners would resist payment of the assessments. He claims that all the work was not satisfactorily done by the brick street contractors.	
Binder asked for some more foot crossings, and most of the other councilmen asked for some repairs of sidewalks, streets, cleaning gutters, etc., most of which was referred to the street commissioners.	
DeGolyer asked why the curfew bell was no longer rung and asked that the ordinance be enforced strictly from now on.	
Dr. Hill, health officer, reported that there was one case of diphtheria in the city and that every precaution was taken to prevent a further spread of the disease. He was authorized to make such arrangements about quarantine as he believed advisable.

FOOD THAT INJURES.

THINGS THAT AFFLICTED PERSONS SHOULD NOT EAT.

If You Have a Tendency to Gout, Shun Meat as You Would Torture. A Little Advice to the Great Army of Sufferers From Dyspepsia.

A physician, writing in the Philadelphia Inquirer on "Foods and Their Effect on the Human System," says: "That out of sorts feeling from which most of us suffer half the days of our life is usually due to our eating things we shouldn't. Although we are constructed on the same model, scarcely any two people have exactly the same kind of heart, liver and other organs, and as a result nothing is truer than the saying that 'One man's meat is another man's poison.'"

Meat, for instance, is a slow poison to a number of individuals. If there is a gouty strain in your family, you are storing up future torture for yourself every time you eat a chop or piece of beef. Gout is simply the result of too much uric acid in the blood, and meat is full of the material from which uric acid is made.

You may think that so long as you have not to sit in an easy chair all day there is no need for precautions in diet. But the first symptoms are always mild, and if you feel irritable and unable to settle down to work you had better be careful how much meat you eat. Englishmen are said to be the worst tempered people on earth. They are also the most gouty, and there can be no doubt that they are the greatest meat eaters.

Nothing is more nourishing than sugar, yet it is absolutely poison to those who are prone to diabetes, and any one inclined to corpulency should regard it as a natural enemy. Two lumps of sugar per day in excess of the quantity required by the body would add 60 pounds to a man's weight in five years—that is, of course, if he had the sort of constitution that easily puts on flesh.

But it is not sugar alone which is injurious to diabetic and stout people. The former should not look at porridge, rice, beet root, Spanish onions, port wine, rum or ginger beer; the latter should take neither soup, beer, potatoes nor treacle, while gouty people should not touch peas or beans.

If any near member of your family has St. Vitus' dance or epilepsy, you should eat meat very sparingly and grapes not at all, while you might as well think of committing suicide as frequenting the barroom.

For dyspeptics it is impossible to say what food is good, because everything is bad. White bread remains undigested for hours, brown bread is most irritating and injurious, vegetables are converted into gases and painful acids, and most kinds of meat are too heavy. The dyspeptic, in fact, ought never to have been born.

However, since the sufferer from dyspepsia must eat, let him follow this rule, and it may bring relief: Eat a little of everything, but eat sparingly, never leaving the table with a sense of having eaten sufficient; eat slowly. Masticate all food thoroughly and never drink while eating. If he must drink, let him drink after he has finished eating.

No doubt the majority of people see no connection between their ailments and the breakfast or dinner which they have enjoyed. But there are many persons who are so severely affected by particular articles of diet that there is no question about the fact that some kind of food are more or less poisonous to us all, although we may not suffer very greatly after eating them. An acquaintance of the writer's, for example, falls into convulsions if he eats a single strawberry, and even the odor of strawberry jam in the neighborhood of jam factories almost throws him into a fit.

The writer knows a lady whose heart comes to a stop if she eats an egg. Of course she never intentionally eats one now, but frequently on taking a piece of cake or some kind of pudding or sauce containing eggs she swoons.

Many people get cramp in the stomach from eating honey, and more than one death has resulted from this cause. Others are made violently sick by the smell of apples, and a patient of the writer's has often averred that even the sight of beet root seemed to suffocate him, while another had to give up drinking milk because it produced intense inflammation of the eyes.

Many kinds of fish cause serious illness. Lobsters and crabs produce most painful itching in some people, and the writer has known several who after eating salmon felt a horrid taste in the mouth, and soon after suffered so badly from headache as to be compelled to go to bed.

These latter are the extreme instances of injury from food, but they prove that thousands of people suffer in a less degree, and that probably no one can lunch or dine without swallowing something poisonous to his system.

Tragic. Scene—A railway carriage. First Artist—Children don't seem to me to sell now as they used. Second Artist (in a hoarse whisper)—Well, I was at Stodge's yesterday. He had just knocked off three little girls' heads, horrid raw things, when a dealer came in, sir, bought 'em directly, took 'em away wet as they were on the stretcher and wanted Stodge to let him have some more next week.

FORESTALLED HIM.

The Chipper Youth Knew What Usually Happened In Such Cases.

The fresh young man with no respect in his soul for gray hairs and dyed whiskers swung himself on the car in the middle of a block, and leaning against the brake handle proceeded to roll a cigarette with great deftness. The fat man who despises the ways of the youth on general principles leaned against the window guards and watched the development of a cigarette.

"Got a match, neighbor?" inquired the fresh young man as he put the last finishing twist to his smoke.

"Young man"—began the fat man after a brief, elderly pause, calculated to greatly impress the cigarette smoker. "Yes, I know all about"—interrupted the youth, "so you might as well choke your lecture on a borin. I know cigarettes will kill me if I stick to 'em, but I don't care. It's an easy death. I know if I must smoke I should smoke cigars, but I don't like the color of 'em. I've got a touch of paresis now, and I'm due for more. I know you think of all the disgusting things in the world a cigarette is the worst."

"I know they undermine the constitution and are wrecking the rising generation. Now if I've forgotten anything you were going to say help me out. Come to think of it, I've got a match myself. If I keep on smoking these things, I won't be able to think at all before long. I know if you had a boy hit within an inch of his life. I nearly forgot you were going to say that. Where do you get off anyhow?"

"Here," gasped the fat man as he dropped off the platform, muttering something about what this country is coming to. And the fresh young man lighted his cigarette with a grin.—Washington Times.

The Recruit's Religion.

Captain Philip Trevor begins a paper in The Nineteenth Century on "The Catholicism of the British Army" as follows:

"What's yer religious persuasion?" said the sergeant to the recruit. "My what?" "Yer what? Why, what I said. What's yer after of Sundays?" "Rabbits mostly."

"Ere, stow that lip. Come, now, chut'ch, chapel or 'oly Roman?" And after explanation from his questioner the recruit replied: "I ain't no wise pertickler. Put me down chut'ch 'England, sergeant. I'll go with the band."

Accounting For the Size of a Fee. "It strikes me, Mr. Brief," said Mr. Dogway, "that your charge of \$750 for this opinion is pretty steep."

"No doubt," said Mr. Brief. "But you see, Dogway, when you come and ask me for an opinion which violates all my convictions you've got to pay not only for your law, but for my conscience."—Harper's Bazar.

FEEDING A SKELETON.

A Hotel Man's Experience With a Freak Boarder.

"Once in awhile I have some freak boarders," said a hotel manager. "One time I had a living skeleton who came very near breaking me up in business. He came here for a long stay, as he was going to make the rounds of all the museums in town. His manager came to me and made arrangements for the skeleton to live at my hotel while he was in the city. I supposed that a living skeleton didn't live on much of anything but water, so I made him a rate away down—\$3 a week, I believe—it was for board and room. The skeleton arrived early one morning, so the first meal he had at the hotel was breakfast."

"After he had finished his breakfast and gone to his room I went to the dining room and asked the waiter what the skeleton had eaten. I nearly fell dead when the waiter told me that the new boarder had consumed three cups of coffee, two orders of beefsteak, four fried eggs, two big baked potatoes, half a loaf of bread and a plate of baked cake."

What do you think of that? That was certainly the worst surprise party I ever experienced. But there was no way out of it. I had made the rates and I could not 'fire' the skeleton out. He staid with me nearly six weeks, and he came close to eating me out of house and home."—Exchange.

GUARDING AGAINST FRAUD.

How London Bankers Lessen the Chances For Embezzlement.

"Very few people know that there are a great and increasing number of firms in this country—banking firms especially—who make an inflexible rule that all employees, whether they be managerial heads or mere junior clerks, must take an annual holiday."

The speaker was one of the best known accountants in London, and he continued: "The reason is that all great employers now realize that most long continued cases of embezzlement and breach of trust are only, as a rule, discovered through the offender being compelled, through illness or some other cause, to leave his books for a time."

"Nearly all defaulting bank managers are trapped through their enforced absence, and thus it has begun to be the rule for employers to insist that servants who have the manipulation of books and money must go away. Hundreds of sets of books come into my hands and those of other accountants in this way, and I could tell you of many cases where two or more clerks, who could in their ordinary work play into each other's hands, are sent holiday making at the same time."

"Another fact of the same kind that is little known is that many employers make a rule of having their employees photographed very plainly in groups every year or two—on some occasion of festivity that is made the excuse—so that the firm always possess a valuable means of identification in case of any man absconding."—Pearson's Weekly.

If You Have Kidney Backache

HERE IS FIVE MINUTES GOOD READING TO REST IT ON.

It is commonly supposed that everyone knows the symptoms of kidney complaint, but upon investigation it has been discovered that very few people know them. So, for the benefit of the public at large, we will give you twelve of the most common symptoms.

First—KIDNEY BACKACHE.
Second—URINARY DISTURBANCES.
Third—HIGHLY COLORED URINE OR WITH SEDIMENT.
Fourth—SCALDING OR PAINFUL DISCHARGE OF URINE.
Fifth—FREQUENT DESIRE TO URINATE.
Sixth—SCANTINESS OR EXCESSIVE DISCHARGE OF URINE.
Seventh—SHOOTING PAIN UP THE BACK OR DOWN THE LIMBS FROM THE KIDNEYS.
Eighth—HEADACHE IN BACK OF HEAD.
Ninth—PAIN IN THE GROIN AND BLADDER.
Tenth—EACESSIVE THIRST.
Eleventh—FLOATING OF THE FEET, LIMBS OR BODY.
Twelfth—NERVOUSNESS, UNREST AND SLEEPLESSNESS.

Morrow's Kid-needs cure every one of these and in so doing tones up the general system making every person feeling like new. We publish a small booklet called "The Vital Question" which goes into detail on kidney diseases which is a valuable little volume, written with stamp for mailing. It fully explains kidney disease from its beginning to its ending without leading the reader through large medical phrases and terms which are not readily understood.

The human system is like a clock which keeps all kinds of time or none at all, need cleaning from the fact that they are filters of the system for all liquids that pass through it. Your body needs bathing, your hair needs cutting, your nails need trimming, your teeth need filing, your eyes need glasses and your kidneys need to be kept in a healthy condition if you wish to be HEALTHY. This is a good common sense argument and you know it. Morrow's Kid-needs is a scientific preparation and cure Morrow's Kid-needs are small yellow tablets (not pills) which makes them easy to take, agreeable to the stomach, and a fresh stock of them on hand. They cost but fifty cents a box, which makes them within the reach of every one. Manufactured by John Morrow & Co., Chemists, Springfield, Ohio.

When it gets out of repair or needs cleaning. The kidneys get just this way; they need cleaning from the fact that they are filters of the system for all liquids that pass through it. LITERATURE

is an international weekly journal of literary criticism. It is a comparatively new periodical, which has been recognized from its first number as a review of the highest standing.

CRITICAL REVIEWS

Thoughtful, thorough, and comprehensive reviews of all important publications in the civilized world. French, German, Italian, Spanish, as well as English and American works, are treated from week to week.

BELLES-LETTRES

Special articles appear weekly in the paper, sometimes under the title of "Among My Books," written by such well-known authors and critics as EDMUND GOSSE, SIR HERBERT MAXWELL, MAX MÜLLER, DEAN STUBBS and from time to time original pieces of literary work, poems, fiction, and essays are published, but in each case only from the pens of world-famous writers, such as

RUDYARD KIPLING, GEORGE MEREDITH. Each week a leading article in the nature of an editorial appears. These leaders are prepared by the editor, and deal exclusively with literary subjects.

AMERICAN LETTERS

The Bi-weekly letter, written by William Dean Howells, deals in that author's original and keen way with subjects of vital interest in the American world of letters and art.

FOREIGN LETTERS

French, English, German, and Italian letters will be published, making this a journal of great value to readers interested in the growth of literature. Occasional work by Henry James, and men of like ability, will also appear.

SPECIAL SUPPLEMENTS

will be published, devoted to descriptive articles on such subjects as rare and curious books, book-plates, special editions of famous books, noteworthy American editions, etc.

DR. PRICE'S CREAM BAKING POWDER
A Pure Grape Cream of Tartar Powder. 40 YEARS THE STANDARD

DIED.

Mrs. Ruth Miller, who has been making her home for several years with her son, Harry M. Miller, in this city, died this morning at 3:15 o'clock. She was born March 11, 1829, at Salem, Ind.

Her parents died when she was a mere child and she made her home with her grandparents, William Hobbs and wife, at Canton, Ind. For a time she lived in Fountain City, north of Richmond, and later she completed her education at a school in Ohio. In 1860, she was married to Lorenzo D. Miller, of Orange county, and they lived on a farm near West Baden. In 1885, Mr. Miller died and in 1886, she moved to Paoli, making her home with her children. In April, 1894, she moved to Seymour with two of her children, Harry M. and Flora, with whom she lived at the time of her death. She also has two sons, Marion and Lorenzo D. who live at Paoli, and two step sons, Samuel C. Miller, of Huntington, and Joseph T. Miller, of Plainville. Mrs. Miller was of Quaker descent, but in 1853 she united with the M. E. church, and during the 46 years since that time has been an earnest member of that church. The funeral will occur at Paoli Saturday afternoon at 2 o'clock. Rev. J. M. Baxter will conduct the services.

DR. BULL'S COUGH SYRUP PREVENTS consumption. One-fifth of the deaths in cities is from consumption, caused by neglected colds. Dr. Bull's Cough Syrup always cures colds.

Sunday School Council.

The first annual council of the Sunday schools of Jackson county will be held at the Presbyterian church of this city beginning at 10:00 a. m. tomorrow. The programs that have been prepared and sent out indicate that there are many subjects to be discussed and many suggestions will doubtless be made that will be helpful to all Sunday school officers and teachers. As this is the first meeting of the kind to be held in the county, the county secretary is especially anxious to have every Sunday worker present.

DR. BULL'S COUGH SYRUP IS A very efficient remedy. For coughs and colds it has no equal. It is good for adults and children. For croup and whooping cough it is invaluable.

Four Generations Represented.

On New Year's day Mr. and Mrs. William Brewer sat down to the table at their home in this city with their children, grandchildren and great-grandchildren. Mr. Brewer is 74 years old and Mrs. Brewer is 76. They will have been married fifty-one years in February.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

How to Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and la grippe. Every bottle warranted. For sale by C. W. Milhous.

Charley Hustedt, jr., who is employed as bridge carpenter on the Southern Indiana, is laying off on account of sickness.

A Common Danger.

If you ever had a cold which you permitted to "wear away" it may interest you to know it was a dangerous proceeding. Every cold and cough which is neglected paves the way for consumption, bronchitis, asthma or catarrh. Otto's Cure, the famous German throat and lung remedy, will cure any cough or cold and save you from consumption. Sold by all druggists. Price: 25c and 50c per bottle.

Lady Minstrels.
Rehearsals for the Lady Minstrels with local talent are going on nightly at the K. of P. Armory Hall. Great interest is being manifested by the ladies taking part. Mr. Skeen, the manager, says that he has seldom met with better talent anywhere. The entertainment will be given at the Opera House Friday evening, Jan. 20th. Judging from the press of surrounding towns this will be the most unique and novel entertainment ever played on the Seymour stage. All the latest songs will be rendered, stump speaking, cake walk and other up-to-date novelties which go to make up a first class minstrel entertainment. Mr. Skeen's last entertainment was at Vincennes for the benefit of the Presbyterian church of that town and judging from the press was a grand success in every particular. Taking all in all this will be the jolliest event of the season, Tout Ensemble.

Tried and True.

Thousand have tried Dr. Cadwell's Syrup Pepsin for constipation, indigestion and sick headache and have found it true to the claim made for it, viz: that it is the best remedy now before the good people for the relief of stomach troubles. Trial sizes 10c, large sizes 50c and \$1.00 of A. J. Pellen's, Druggists.

RAILROAD RUMBLINGS.

Freight traffic has been very heavy from the west today.

Trainmaster Carey, of Washington was here yesterday evening.

C. E. Walker, of Washington, division master mechanic of the B. & O. S. W. went to Cincinnati this forenoon.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per bottle. For sale by W. F. Pease.

"Why Do Business With Him."

Some ladies complain of a stranger who is going about the city claiming to repair sewing machines. He asks permission to see the machine then slyly removes a spring or a screw or some other little part, then claims the machine is out of repair, but for a dollar or two he can put it in good order. Better do business with your home people than such a stranger, if your machine needs repairing.

Col. A. J. D. Thurston and his sister Miss Ethel Thurston, are both dangerously sick at the home of Mrs. A. P. Charles. At noon it was thought Colonel was some better.

A MONOMANIACAL WITNESS.
How His Phase of Lunacy Was Developed During a Trial.
"That calls to mind a queer experience of my own," said a lawyer who had listened to a story. "Some years ago I defended a fellow for murder in a little southern town, and the worst witness we had against us was an old German who was a stackbuilder by trade. A stack, by the way, is merely another name for a big chimney.
"The old fellow was perfectly honest and gave his evidence in such a clear, straightforward manner that I felt my client was doomed unless I could think of some way to break him down. While I was indulging my brains a friend whispered to me to ask him how high he could build a stack. 'What do you mean?' I asked, in surprise. 'Never mind,' said my friend. 'Just slip in that question and see.'
"So at the tail end of the cross examination I paused, as if struck by an afterthought, and said, 'You are a stackbuilder, I believe?' 'Yes, sir,' replied the witness. 'Well, sir,' I continued, 'about how high can you build?' I never got any further. A swift, inscrutable change flashed over the German's face, and he rose excitedly from his chair. 'As high as der sky!' he roared. 'So high dose angels come around it like birds!
"In five seconds he was raving. You see, the man was a monomaniac—sane on every subject but one, and my friend happened to know his weak spot. It is hardly necessary to say that his evidence in regard to the homicide was promptly ruled out by the judge, and as there was no other witness of importance my man was cleared. The rascal should have been hanged and would have been but for the lucky reference to the stack."—New Orleans Times-Democrat.

TWO OF THEM.

Private O'Mara's Tart Retort to His Unconquered Colonel.
Here is a story told of Patrick O'Mara, a private in the Ninth regulars: Not long ago he went to the colonel, who was a severe disciplinarian, for a two weeks' leave of absence.

"Well," said the colonel, "what do you want a two weeks' furlough for?" Patrick answered, "Me wife is very sick, and the children are not well, and if ye didn't mind she would like to have me home for a few weeks to give her a bit of assistance."

The colonel eyed him for a few minutes and said: "Patrick, I might grant your request, but I got a letter from your wife this morning saying that she didn't want you home; that you were a nuisance and raised the devil whenever you were there. She hopes I won't let you have any more furloughs."

"That settles it. I suppose I can't get the furlough then?" said Pat.

"No, I'm afraid not, Patrick. It wouldn't be well for me to do so under the circumstances."

It was Patrick's turn now to eye the colonel as he started for the door. Stopping suddenly, he said:

"Colonel, can I say something to ye?"

"Certainly, Patrick. What is it?"

"You won't get mad, colonel, if I say it?"

"Certainly not, Patrick. What is it?"

"I want to say there are two splendid liars in this room, and I'm one of them. I was never married in me life."—New York Tribune.

Talking Through a Human Body.

To talk through a human body, or a row of human bodies, for the matter of that, is one of the weirdest of the electrician's feats. If a telephone wire be severed and the two ends be held by a person, one in each hand, but far apart, it is quite possible for two individuals to carry on a conversation through the body of the medium as readily and as distinctly as if the line had been properly connected.—Electricity.

Neatly Caught.

A certain Greek adventurer some years ago undertook to palm off upon the public some false copies of the gospel manuscripts. Many learned men were deceived, but not Dr. Cox, librarian of the Bodleian library at Oxford. How he detected the fraud is related in his own words in The Spectator:

I never really opened the book, but I held it in my hand and took one page of it between my finger and thumb while I listened to the rascal's account of how he found this most interesting antiquity.

At the end of three or four minutes I handed it back to him with the short comment, "Nineteenth century paper, my dear sir," and he took it away in a hurry and did not come again.

Yes, I was pleased, but I have handled several ancient manuscripts in my time, and I know the feel of old paper.

NOTICE TO TAXPAYERS.
Notice is hereby given to the taxpayers of the City of Seymour, Indiana, that the tax duplicate for city taxes for the year 1898 is now in my hands, and that I am ready to receive taxes thereon.

The levies for 1898 are as follows: For general purposes, seventy-five cents including two cents for public library purposes on each one hundred dollars valuation of taxable property. Fifty cents on each taxable poll. One dollar on each male dog, two dollars on each female dog.

For special purposes, five cents on each one hundred dollars valuation of taxable property.

SPECIAL NOTICE.
The first installment of taxes must be paid on or before the first Monday in May, otherwise the whole tax will be delinquent and subject to penalties. Particular attention is called to the fact that the spring payment is having been extended to the first Monday in May, gives the taxpayer less time to bid the duplicate and it will be to the interest of the taxpayers to be as prompt as possible in paying the same. The second installment must be paid on or before the first Monday in November.

The assessment on street and alley improvement bonds must be paid on or before the first Monday in May and the first Monday in November.

How Advertising Pays.
Now is the season for advertising, and in this connection it is worth while to take a shot at the old fogey idea that the advertising cost must be added to the goods. Far from it. Advertising makes operations possible, and big operations materially reduce fixed expense. In fact, the liberal advertisers all over the country are the men who give low prices, and yet make the most money for themselves. Advertising is a blessing to the people and a double blessing to the man who does it.

How to Look Good.
Good looks are really more than skin deep, depending on a healthy condition of all the vital organs. If the liver is inactive, you have a bilious look; if your stomach is disordered, you have a dyspeptic look; if your kidneys are disordered, you have a pinched look. Secure good health and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples, blotches and boils, and gives a good complexion. Every bottle guaranteed. Sold at W. F. Peter's Drug Store. 50 cents per bottle.

FOR LITTLE FOLKS.
In a Minute.
Ethel was out on the long plank wharf when the dinner bell rang. She was feeding the cunning little baby ducks with cracker crumbs.
"I'll go in a minute," she said to herself as she broke another cracker into tiny pieces. But the baby ducks were hungry, and it was such fun to feed them that Ethel forgot all about her dinner and the big brass dinner bell, just as she had done ever so many times before.
She had only one cracker left when Bruno came running down the wharf to see her. The old mother duck splied him as he came bounding over the planks.
"Quack!" she called loudly, and what do you think? Every one of those baby ducklings scrambled and scrambled, and into the water they went with a splash!
"Quack!" said the mother duck again, and all the little duckies swam hurriedly after her and disappeared among the rushes that grew by the edge of the pond.
"Why," explained Ethel in astonishment, "they didn't wait to gobble another piece! They minded their mother the very first minute she called them!"
Very still she stood for a second, thinking, and then she gave her basket to Bruno and ran quickly up the wharf, across the street and into the house.
"Late, as usual," said Brother Hal as Ethel came into the dining room and took her seat at table. "It's 20 minutes, instead of one, that you waited this noon," he continued as he glanced up at the clock.
"But it's the last time I'll be late," said Ethel decidedly, "cause—cause—it is!"
And Ethel kept her word. She had learned her lesson and learned it well, and nobody but the big white mother duck knew who taught it to her.
And I'm very sure that she will always keep her secret. Because why? She can't tell it, that's all—Margaret Dane in Youth's Companion.

IN A HURRY
Important Legislation Is Rushed Through the House Under Suspension of Rules.

PARENTS TO THE RESCUE
Ex-Soldier Attempts Suicide Because of Fear That He Could Not Support the Girl of His Choice — Charles Clemmer's Narrow Escape From Being Buried Alive.
Indianapolis, Jan. 13.—Both branches of the legislature are fairly settled down to business now that the senatorial contest is over, and the business of both houses is being taken up vigorously. In the house yesterday morning 42 bills were introduced, and one of them (by Mr. Canada) was passed, the constitutional rule requiring three readings having been suspended. The bill provides that in civil suits before the supreme or appellate court where the case is delayed by the failure of coparties nonresident of the state to appear, the court may arrange for a summons through the press rather than by personal service. The bill was approved by Supreme Judge Monks, in view of the many cases now dragging before the court. Some little objection was raised to rushing such an important bill through without letting the members have a chance to study it, but most of the members seemed content after speeches by some of the lawyers of the body.
Among the bills introduced was one by Mr. Downey requiring druggists to have county as well as government license for the sale of intoxicating liquor. Several committees reported, killing about one-third of the bills introduced. So far 160 bills have been introduced in the house.
The senate began its business with a report by Senator Early, chairman of the judiciary committee. Bill 25, allowing ex-soldiers to peddle in the state without special license and 32, relating to attorney fees in venued cases, were favorably reported, and bill 21, fixing salaries for township trustees, was referred to the committee on county and township business.
Senator Binkley introduced a bill which provides that the state board of education must issue licenses to school-teachers who pass the required examinations. At present only graduates of the State Normal are so favored.
Senator Johnson introduced a bill authorizing the state oil inspector to stop leaks in gas wells, after notification has been given the owner, and hold the owner for the expense. Another bill by Mr. Johnson makes it a misdemeanor for the owner to allow a leak to go unnotified, and making him personally liable for the same.
Both branches adjourned early. The sessions today were interrupted by the exercises in the rotunda in the presentation of the captured Spanish cannon and flag to the state, which both houses attended.

RAILROAD RUMBLINGS.
Greensburg people are rejoicing because of the proposed extension of the Southern Indiana through their city.

J. H. Boake, of Seymour, was here yesterday on business—North Vernon Tribune.

The annual report of the board of state charities stated that Indiana expends annually for poor relief through county and township officials about \$1,000,000. About one-half this sum, however, is paid for the care of persons in institutions.

LaGrippe Successfully Treated.
"I have just recovered from this second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexico, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.' For sale by C. W. Milhous.

It is a gratifying matter to note the increase in the exports of corn for 1898. In round number the country shipped 207,000,000 bushels, against 176,000,000 bushels for the preceding year.

I advertise particular things, give prices, take as much pains with my announcements as I do with my stock, and do my heaviest advertising in dull times, because then is when people look most keenly for bargains.—[John Wanamaker.

There are still five widows of Revolutionary soldiers on the pension roll—Rebecca Mayo, Newburn, Va., aged 87; Nancy A. Weatherman, Elk Mills, Tenn., aged 92; Nancy Jones, Jonesboro, Tenn., aged 84; Esther S. Danon, Plymouth Union, Vt., aged 84, and Mary Snead, Parkersburg, Va., aged 82.

[An Important Question.]
If your friends or neighbors are suffering from coughs, colds, sore throat, or any throat or lung disease (including consumption), ask them if they have ever used Otto's Cure. NOT A DIRECTORY.
Why the Hardworking Letter Carrier Loses His Temper Occasionally.
I stopped a letter carrier in Thirty-sixth street the other morning and inquired the number of the house on the other side of the street at which a personal friend of mine lived, giving the name and occupation of the gentleman about whom the inquiry was made. I knew he lived across the way, in one of a certain block, but had forgotten the particular number, and I knew the carrier would know by the mail delivered.
"Don't you know, sir," said the carrier, who knew me, by the way, "that you ask for that which is contrary to the rules of the postoffice department to give?"
"No, I don't," I blushingly admitted.
"Well, it's true," he said. "The law recognizes the right of a citizen to a private residence, undisturbed, as long as he has committed no offense that requires such privacy to be invaded. Now if I should give your number and street to anybody who might happen to want them, the thing might cause you some annoyance."
"Why, anybody could find that out through the directory."
"They might, and they might not. Anyhow the postoffice is not a directory."
"And didn't you know," he added as a parting shot as he went away, "that you violate the law by stopping a postman in this way while he is delivering his mail?"
No, I didn't, and for that reason these paragraphs.—New York Herald.

Big Failure at Evansville.
Evansville, Ind., Jan. 13.—L. Lowenthal Sons & Co., wholesale clothiers, failed yesterday. Assets are about \$100,000. The company refused to give its liabilities. It employed over 100 hands. The cause of the assignment was inability to collect outstanding debts.

Member of Church Seventy Years.
Dillsboro, Ind., Jan. 13.—Mrs. Mary Eggleston Williamson, the oldest resident of this place, is dead. She was 86 years old. Mrs. Williamson belonged to the same family as the author of the "Hoosier Schoolmaster." She was a member of the M. E. church for 70 years.

An Enterprising Druggist.
There are few men more wide awake and enterprising than W. F. Peters who spare no pains to secure the best of everything in their line for their many customers. They now have the valuable agency for Dr. King's New Discovery for Consumption, Cough and Cold. This is the wonderful remedy that is producing such a furor all over the country by its many startling cures. It absolutely cures Asthma, Bronchitis, Hoarseness and all affections of the Throat, Chest and Lungs. Call at the above drug store and get a trial bottle free or a regular size for 50 cents and \$1.00. Guaranteed to cure or price refunded.

SHOT BY A GAMBLER.
Charles Williamson, Race Horse Man, Killed at Louisville.
Louisville, Jan. 13.—Charles Williamson, race horse man and proprietor of "The Mecca" saloon in this city, was shot five times late yesterday by Ike D. Smith, a gambler. Three bullets passed through his body, and he died without regaining consciousness at St. Joseph's infirmary, where he was taken immediately after the shooting. The shooting was the result of a quarrel over a small amount of money. Williamson lived in New Albany and was possessor of considerable property, having been one of the heirs to a Philadelphia estate, which was worth several million dollars.

COME TO LIFE.
Charlie Clemmer Comes Near Being Buried Alive.
Acton, Ind., Jan. 13.—Charlie Clemmer, an 18-year-old boy of this place, who has been ill with heart trouble for several months, was pronounced dead by his family and physicians, and preparations were made for burial last Thursday. When all was in readiness, the corpse showed signs of life, whereupon the funeral was postponed. The boy is still in a comatose condition, and, although the body is warm, there is no other sign of animation. The physicians entertain hopes of recovery.

LONG AND SHORT MEN
They Are Represented In Two Citizens of Chesterfield.
Chesterfield, Ind., Jan. 13.—This city is the home of two young men who, in point of stature and weight, represent the two extremes. They are Charles Thompson and Walter Cartwright, each 17 years old. The former is less than 4 feet in height and weighs but 45 pounds, while the latter is 6 feet 2 inches and tips the beam at 190 pounds. Young Thompson has a sister 15 years old, who is a fraction over 3 feet high and weighs 40 pounds. Thompson's parents are of average height and weight.

Spanish Language In The Schools.
Wabash, Ind., Jan. 13.—Spanish is to be regularly taught in the Wabash high school. The decision was reached by the trustees and the faculty, who concluded that the acquisition of vast territory where in Spanish is the language, makes it of value and importance to the student in the higher branches. The indications are that most of the high-school students will elect to take Spanish.

Indiana Postmasters.
Washington, Jan. 13.—Indiana postmasters were appointed yesterday as follows: Greenville, William F. White; Maximo, Charles W. Cockrill.

Cincinnati Florida & Havana

The Wheels of Progress
are turning rapidly toward the tropical islands on our southeastern coast. The people are interested in hearing about these islands, their wealth, the condition of their inhabitants as to education and civilization; and, not least of all, in the question of how to get to them, how long the journey is, and the cost of it.
forms a route which is over a hundred miles the shortest to these parts from Cincinnati and the North. New rail and steamer service goes into effect about December 1st, known as the CINCINNATI, FLORIDA AND HAVANA LIMITED. Shortens the time about 24 hours. Elegant service.
Tickets on sale at greatly reduced rates, from all points north, through to Havana, including transfers, meals and berths on steamers, etc. Particulars to you free if you will write to
